
PREVENTION BEGINS WITH YOU!

Regional Data Strategies

Prevention programs now depend greatly on the establishment of partnerships between schools, public & private agencies & organizations, as well as the community at large. Utilizing these relationships we can then begin to establish a Strategic Prevention Framework (SPF) which will guide in the development and implementation of community-based approaches that will lead to effective and sustainable reductions in alcohol, tobacco, and other drug (ATOD) use and abuse. The PRC 5 programs include:

Comprehensive Data Collection Strategies

Regional Needs Assessment

Texas School Survey

Data Epidemiology Workgroups

Assistance for Regional Coalitions
